

# Skinman Soft Protect

New skin friendly, alcohol based surgical hand rub solution

- **Skinman Soft Protect** contains 90% w/w Ethanol in a water clear solution. It is an ARTG registered surgical and hygienic hand rub which conforms to EN 12791 and EN 1500.
- **Skinman Soft Protect** alcohol-based surgical and hygienic hand rub has a unique, skin-friendly formulation which has been carefully developed with ingredients for excellent skin compatibility: vitamin E, nourishing glycerine and regenerative panthenol.
- **Skinman Soft Protect** Product line extension with an improved formulation of Ecolab's iconic Skinman 90 surgical rub.
- **Skinman Soft Protect** Compatible with current Skinman 90 dispensing equipment.

\*Current WHO and ACORN guidelines recommend the use of alcohol based formulations for pre-operative hand preparation given their superior antimicrobial efficacy and dermal tolerance.
